- Rotate seasonal bed linens
- Make clothes shopping list

BASEMENT
- Organize and streamline storage area items (as necessary)

GARAGE
- Declutter and organize
- Sweep and clean floor

BONUS TIPS:
Clean during early spring, when the air is still a little crisp. That way, you won’t be cooped up cleaning instead of outside enjoying the sunshine.
Try tackling your deep-clean over the course of a week or two; one room at a time. It feels less of a major, life-disrupting project that way.
Splurge on premium cleaning products that make your time spent cleaning smell a little sweeter—and maybe even seem a teensy bit luxurious.
