Accordion hearts
Print the template onto 8½×11-inch paper and cut out. Cut a 5½×12-inch rectangle from a piece of scrapbook paper. Fold accordion-style, parallel to the short side (as indicated by the dotted lines on the illustration). You should have six 2-inch sections. Center the straight side of the heart template on the folded edge of the accordion. Trace and cut out. On a contrasting paper, trace a heart that’s ¼ larger all around. Glue to the back of the center heart on your accordion.

Heart wreath

Fold a piece of 12×12-inch scrapbook paper in half, then fold up each bottom edge along the dotted line (as shown in images 1 and 2). Draw a heart with the sides on the edge of the folds. Cut out, making sure not to cut the sides of the heart. Write your note then pop in an envelope.
